

## EZ-Web Punch

Complete web-based timeclock system

### What's a great time and labor system without an equally great digital punch clock program?

Developed by Employee Based Systems especially for EZ-Track, EZ-Web Punch is an easy to use workstation timeclock system designed to ease the problems associated with time collection.

#### Key Features

- ◆ EZ-Web Punch can be installed on any number of workstations from individual PCs to a centralized dedicated machine
- ◆ A complete web-based timeclock system
- ◆ Functions like a traditional swipe system
- ◆ Equally compatible with touch screen hardware or mouse operation on a PC
- ◆ Provides options to let employees view the time punches they have created within the current pay period

**With EZ-Web Punch** employees can punch in, out and perform job-costing functions. In addition, EZ-Web Punch's self service option allows employees to review punches, hours worked, attendance balances and even request time off.

#### Our Mission

"Help companies to ensure human resource and payroll excellence by providing them with high-quality products and services that perform beyond their expectations"
